

# St John Fisher Catholic Primary School

**E-SAFETY POLICY**  
**Addendum**  
**For use during Coronavirus 2020**

# E-Safety policy Addendum for use during the Coronavirus 2020

1. Use only apps, sites and games that have been vetted by a trusted adult.
2. Follow the rules and codes of conduct for online sites and apps.
3. Don't share anything that another person would not want shared or which might upset them.
4. During online learning ensure that an adult is available should something happen. The trusted adult should know what the child is doing online and should supervise them in an age appropriate manner. If someone sends a child something inappropriate online, it is generally not the child's fault. It should not be passed on, instead a trusted adult should be informed straight away.
5. If there are any concerns about online safety, visit the CEOP website <https://www.ceop.police.uk/safety-centre/> or report concerns to the school.
6. Keep passwords secure and reset them if someone finds out. Ensure that no personal information about the child, family or friends is shared online which might identify them.

7. Do not click on links and only install things when it has been agreed by a trusted adult that it is safe to do so.
8. Only communicate with people that are already known to the child online and that a trusted adult knows about. If someone new wants to befriend the child, this must be discussed and agreed by a trusted adult.
9. Public Live Streams have to be supervised by an adult.
10. Photographs are only sent when they have been discussed and agreed with a trusted adult.
11. Only edit or delete your own work and only use words, pictures and videos from other people when you have permission, or if it has free copyright or has a creative commons licence.
12. Use only safe search tools that are agreed by a safe adult and remember that not everything that is online is necessary correct or true.
